# VALENTYN KOLESNICHENKO

## Process Engineer

Process Engineer in the field of Food Technology and Heavy-duty laundry processing.

As an engineering part of my background, I am qualified in CAD process design (AutoCAD, Revit).

For the commercial sector of my working experience, I obtained solid skills in project management and business processes optimizations and automation (Excel, Power Query, Ninox, Integromat).

I am looking for further carrier opportunities in the area of CAD and business automation.

## ACHIEVEMENTS

### Developed and implemented Configure Price Quote App

- Customer and Project management.
- Product and quotation configuration module.
- Integrated .pdf print and One Drive file storing.
- Email module.
- Excel export data generation.

### Developed and implemented Sales, Ordering, Purchasing and Invoicing App

- Order management
- Sales documents preparation and tracking
- Document printing, One Drive and Outlook integration
